### MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

mystery has ever compared with that of an life. It has been the leading subject ofessional research and study in all ages notwithstanding this fact it is not gener

ally k nown that the seat of life ls located in the upper part of the spinal cord, near the base of the brain, and so seasior the oral in, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

ecent discoveries have demonstrated that Recent discoveries have demonstrated that all the organs of the body are under the confol of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at

which they supply with nerve force.
Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the troable.

Dr. Franklin Milles, the celebrated specialist has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, thief among them heing the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, duliness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.

# A TERRIBLE FIRE

In a Buffalo Lodging House and its Awful Results.

#### TWO BURNED AND TWENTY INJURED

Before Any Aid Could Reach Them. Penned in by Flames and Powerless to Help Themselves-No Fire Escapes on the Building and no Way to Save the Frenzied Occupants. The Names of the Victims-Some of the Injured Will Die.

BUFFALO, N. Y., Jan. 2.-The new year was little more than twenty-four hours old when Buffalo was visited by one of the most fatal fires in her history. Those dead and likely to die recall the horrible catastrophe of the burning of the Hotel Richmond on the memorable 18th of March, 1887.

The scene of the fire which occurred this morning was Mrs, Annie Hackett's lodging house, No. 12 Swan street, a four story brick building of the tumbledown order. The first floor was used for a saloon and restaurant, and the second and third floors were used for sleeping rooms. The beds were in little compartments and like box stalls in a stable.

Shortly before three o'clock people passing heard the large panes of glass in the saloon crack and a moment later a cloud of thick black smoke and a ongue of flames dashed out of the place. Almost at the same time the front and side windows of the lodging house seemed to be alive with panic stricken people. They rushed from one window to the other and called piteously to the crowd to help them to escape from the blazing building. There were no fire escapes on the building, no way to save the frenzied occupants.

Two people were burned and about

twenty others badly injured. At least five of whom are likely to die. Following is a list of the dead and in-

iured:

Dead—Isaac Bradley, printer. Woman known as "Edna," day cook. Injured—Mrs. Annie Hackett, proprietress, burned about head and arms.

Will recover.
Louis / Anderson, lodger, burned about head, face and arms. Will probably die.
David E. Ward, negro cook, badly

ourned about head, face and hands. Will probably die. Edward Cross, of California, fright fully burned about face, head and

hands. Not thought he can recover. Charles Vanever, colored, private detective, hands and feet in bad shape. Will probably die.
Charles Edwards, printer, left arm

broken, body badly burned and jumped from the third story. Will probably die. John Avery of Palmyra, N. Y., also jumped from the third story. His legs were badly burned and bruised. George Wright, bartender, hair

burned off, hands and face blistered. Will live: George Fleming, arms and face George Harrington, left shoulder dis-

located and back burned. J. F. Russell, painter and decorator, of Olcott, N. Y., burned about arms and body. Will live.

William Sweeny, shoemaker, slightly burned about the legs.

The loss on property was very small,

probably not more than \$2,000.

## COUGHLIN IDENTIFIED

By Mertes as a Man He Saw at the Carlson Cottage.

CHICAGO, Jan. 2 .- Milkman Mertes, who was brought from Wisconsin to repeat the testimony given for the state at the former trial, was called to the stand in the Coughlin case to-day. He aid that on May 4, 1889, he saw a buggy driven to the door of the Carlson cottage. In it was a young, slight man and a large man. The latter, he said, ran up the steps, unlocked the door and

"And that is the man I saw enter the cottage," said the witness, pointing at the defendant. Coughlin looked straight into the mitness' eyes, but Mertes added: "Yes, Coughlin is the man I added: "Yes, Coughlin is the man I saw. I came by the cottage later and heard some one hammering in there. The other man in the buggy was Kunze." Coughlin frequently in interviews declared Mortes a perjurer. Mertes' testimony, except for the more dramatic identification, was substantially the same as that he had given at the former trial. When he had concluded his story Judge Wing conducted a searching cross examination.

In a Receiver's Hands.

CHICAGO, Jan. 2 .- Judge Grossiup, of the United States circuit court, has placed thee American Building Loans Investment Company in the hands of a receiver, the action being taken at the request of the president and board of directors. The directors state that the downfall of the society is due to threats of proceedings against it made by the law officers of Illinois. Insolvency is confessed with liabilities of \$900,000 and assets of \$700,000.

The Foster Fallure.

Toledo, O., Jan. 2 .-- Ex-Secretary Foster will probably be unable to settle by paying his creditors 50 cents on the dollar as he agreed. Offsets have come in which decrease the assets of Foster & Co., which involve the raising of \$20,000 additional to meet the agreement. The creditors committee say no delay will be tolerated and they will proceed to collect by law all they can. The experts will, within a few days, complete their investigation of the

More Wage Reductions. BUTLER, PA., Jan. 2 .- The Pittsburgh, Shenango & Lake Eric Railroad Company has reduced wages 10 per cent.

Trackmen now receive \$1 08 per day. The Standard Plate Glass Company to-day cut all employes 25 per cent, excepting common laborers, who were receiving \$1 25.

Man wants but little here below, But wants that little good.

Nine out of ten men when asking for a drink, will simply ask for "something good," and out of the nine there are not two who know when a drink of good whiskey, brandy, gin or rum is sold them. Few hotels or venders of liquors can assure their customers that the liquors set before them are absolutely pure and old. One tastes almost as good as the other; but if you want to be sure that you are buying only a pure liquor, we advise you to look at the bottle and see if the name of Max Klein is blown in the bottle, and his signature on the label, and if you see it there, you can bet your best dollar that you are getting a "straight" article. His Silver Age, Duquesne and Bear Creek Ryes recommended by physicians and men of all professions. For sale by Wheeling Drug Company.

were 255,200 shares.

The temper of the share speculation, which at the close of the old year was buoyant, had changed materially at the opening of business on the first secular day of the new year. There was a heaviness in the initial dealings which bode no good to values, and as the day advanced the depression increased, the late dealings being more panicky and feverish than at any time during the day. Among the causes which led up to the break in prices was the circulation of a report that a well known trust company was in trouble, and this was magnified into a runor that several financial institutions were on the verge of bankruptey. The basis for the original story is found in the fact that one of the lesser financial institutions of the city, which has been known to be weak for some months bast, is likely to go into liquidation as agresult of the annual examination of its affairs by the state banking department. But there is no other known or even suspected weak spot in this financial centre, and no alarm is folt in local financial circles in regard to the stability of the city's monied institution.

A furious drive was made on Sugar on a report that the ways and means committee had agreed upon an amendment to the tariff bil adverse to the interests of the company, and the bears also used the decline in the price of refined sugar to depreciate the shares of the sugar company. New England was pressed for sale by reason of the attempt to replace the present receivers by representatives of she record mortgage bondhoiders. London was in the market as a sciler of St. Paul and Louisville & Nashville. St. Paul was forced down on reports of continued decrease in earnings for the fourth week in December. The other Granger shares also declined in sympathy with St. Paul. The general market was feverish during the day, with frequent fluctuations, and closed with a decidedly heavy tone, with declines ranging from 1 to 3% per cent.

The bond market was fairly firm.

Dry Goods.

New York, Jan. 2.—The new year opens with a more cheerful feeling generally prevalent as to the dry goods market, based on the knowledge that interior stocks are ismall and that the price of raw material is at a very low point, giving small opportunity for a much further decline, while the possibility of a change for the better is without limit. There is considerable looking around for cheap lots. Print cloths rule quiet on the basis of 3 cents for extras. Prints and printed fabrics, suitable for spring trade, are steady and moderately active. Foreign dry goods rule dull and generally nominar. The jobbing is quiet.

After

About twenty-five years ago I was afflicted with a disease which the doctors pronounced Schofflid. I was treated by several physicians and specialists without being benefited; and I tried many blood remedies, without relief, was recommended, and after taking six bottles I am now well my skin is perfectly clear, and I would not be in my former condition for two thousand dollars.
